

The BOONARAAAS!!!

THE BOONARAAAS!!! are

TRICH	voc./bass
CHRISTINA	drums/voc.
LAURA	guitar/voc.
TINE	guitar/voc.

„5 Steps Ahead“ is the modest title of the follow up to „Go Get Goo Goo“ to be released in March 2007 on the Sounds of Subterranea imprint. While most musical groups are taking two steps back, the Boonaraas thrust is most definitely forward.

There's a lot of girl punk and garage bands doing the rounds these days but none of them bring the essence of both together like Germany's Boonaraas!!!

They bash out their heart and soul-poppin' sonic nuggets using vintage equipment but the noise they make is very much NOW!

With so many old fogies zig-zagging across the world making money for their old age, it's a pure pleasure to discover a bunch of young ladies who have the energy and presence to make it seem like maybe you haven't seen and heard it all. A treat for the ears and the eyes, no matter what your persuasion.

Trich's sassy singing and bass attitude along with Christina's command of the big beat provides a rockin' solid foundation. Laura's Danelectro action blends with Tine's rhythm licks to create a fuzz-infused wall of sound that is so direct that you'll wonder what the heck just hit you.

And like all special acts throughout history, they have a knack of mixing originals and covers in a way that you can't see the joins. You just wonder where they've been all your life.

The Boonaraas!!! played their action and energy filled sets alongside cool acts like Stereo Total, Tocotronic, The Beatsteaks, Dick Dale, Buzzcocks, The Movement, The Boys, The Monsters, The Kids and many more and already invaded Spain, Italy, Norway, Denmark, the Netherlands, France, Belgium, Switzerland, Austria and cities all over Germany.
